# **SIGNATURE PROJECTS**

# ENVIRONMENT PROTECTION

People those who are mainly concerned with protecting the environment will often use the terms preservation and conservation. Conservation of environment simply implies the sustainable use as well as management of natural resources which include wildlife, water, air, and earth deposits. There are renewable and non-renewable natural resources. Conservation of natural resources generally focuses on the needs & interests of human beings, for the biological, economic cultural and recreational values.

As far as preservation of environment is concerned, it tries to maintain the present condition areas of the nature or Earth which are not yet touched by humans. This is because of the fact that mankind is encroaching onto the environment at such a rate that various wild landscapes are being given over to farming, industry, housing, tourism and other human developments.

# BLOOD DONATION

Blood can be defined as the fluid we have in our bodies that carries oxygen from the lungs to the rest of the body. It also carries waste to be eliminated from the body. It is the life of an individual. We have between 4 and 6 litres of blood in our adult bodies depending on size. Millions of people will need blood this year.

There are tens of thousands of pints of blood that are needed every day to help people. Some of the reasons people need blood transfusions are : Surgery, accidents, Cancer, Sickle Cell and

Premature birth. Almost all serious health issues use blood donated by people like you and me to save lives.

Blood that is donated lasts a little more than 40 days. Then it must be disposed of. That means we need to constantly replenish the blood so it's there when someone needs it. This blood could save a baby, a child, a mother, a father, a grandfather, a grandmother. Not everyone can save a life. But you have an opportunity to. Don't waste it. If you are a healthy donor, and do not mind taking a little time out of your daily schedule to donate blood when someone is in an emergency, please REGISTER. you might be able to save a life or help ease the trauma for the kind of a patient. What's more, this very service might help you when in time of need.

The approach is multi-pronged. Indian Blood Donors will serve as a public directory of voluntary donors. The service allows those in need of blood to mention their needs which are then made visible to a wide audience. A comprehensive database will help individuals locate the nearest Blood Bank.

# DENTAL HEALTH

According to the World Health Report-2003, oral diseases qualify as a major public health problem owing to their high prevalence and incidence in all regions of the world. The greatest burden of oral diseases is on disadvantaged and socially marginalised population. Poor oral health may have a profound effect on general health. The economic impact of oral disease is also significant. Traditional treatment of oral disease is costly. In developing countries, resources are primarily allocated to emergency oral care and pain relief; if treatment were available, the costs of dental caries in children alone would exceed the total health care budget for children. This committee will help and advice clubs to conduct dental checkup, and treatment and prevention camps. School children will be taught about the tooth brushing techniques.

1. Proper Brushing
2. Flossing!
3. Avoid Tobacco
4. Limit Sodas, Coffee & Alcohol
5. Consume Calcium and other Vitamins that are
6. Visit your Dentist good for the body.
7. Use Mouthwash alongside brushing and flossing
8. Clean your tongue.

# EYE DONATION

Eye donation is an act of donating one's eyes after his/her death. Only corneal blinds can be benefitted through this process not other Blinds. It is an act of charity, purely for the benefit of the society and is totally voluntary. It is done after death. So eye-donation should be encouraged in a large scale, as one of the best means of social service. To enable another person, obtain vision is one of the best forms of charity. Even after death the donor lives in the eyes of recipient. Eye from a dead person can enable two blind people to acquire vision.

The eyes of a dead person can be used only if they are taken out within 6 hrs. of death. When a person who has given consent for the donation of one's eyes dies, the eye should be kept wet by sprinkling water on them. Otherwise pieces of cotton wool soaked in water should be placed on both the eyes so that the cornea does not become dry till the eye-surgeon arrives. After the removal of the eyes the eyelids will be stitched together and there will be no visible sign of the eyes having been removed. The entire process is completed within 10-15 mins. therefore if one pledged to donate his eyes after death, is the duty of his relatives to inform to the nearest eye bank after his death.

# DIABETIC DISEASE

Diabetes is a chronic condition associated with abnormally high levels of sugar (glucose) in the blood. Insulin produced by the pancreas lowers blood glucose. Absence of insufficient production of insulin, or an inability of the body to properly use insulin causes diabetes.

The two types of diabetes are referred to as type 1 and type 2. Former names for these conditions were insulin-dependent and non-insulin-dependent diabetes, or juvenile onset and adult onset diabetes.

- Symptoms of diabetes include
  - excessive thirst
  - hunger
  - skin problems
  - yeast infections
  - tingling or numbness in the feet or toes.
- Chronic complications : disease of the blood vessels (both small and large) that can damage the feet, eyes, kidneys, nerves and heart.
- increased urine output
- weight loss
- fatigue
- slow healing wounds
- blurred vision, and

# DRUG DE-ADDICTION

The United Nations 2011 drug and crime report says India is the largest consumer of heroin in South Asia, which stands to reason as it has the largest population in the region by far.

We must make a concerted effort to reclaim our youth.

# ROAD SAFETY & TRAFFIC AWARENESS

The need for prioritization of road safety education with a focus on issues like drunk driving, driving fast, negligent and rash driving are among the 22 main recommendations highlighted in a report submitted recently to the ministry of road transport and highways. A working group on road safety education has made the

suggestions that assume significance in the wake of increasing fatal accidents on the city roads and highways.

# CARE FOR DIFFERENTLY ABLED INDIVIDUALS

The incidence of disabilities either physical or mental in our communities is far more common than you might realize.

Ensuring that people with a disability have maximum quality of life is very important not just because they are still human like all of us, but that their dignity and social well-being should not be downgraded just because of a disability. Disabilities can occur through illness, aging, accidents and injuries and a wide scope of different causes that may happen to anyone, or will

affect us all at some stage in life.

The great thing is that it is not so very hard to help enhance a disabled person's life to made living easier, doing daily tasks more comfortable and successful.

- Improving the Home & Environment.
- Consider and install ways or systems to make their day of day life easier in their home.
- Improving Social Well-being
- Managing Hobbies & Activities
- Managing Health & Well-being

# CARE FOR SENIOR CITIZENS

Out of every 10 elderly couples in India, more than 6 are forced by their children to leave their homes. With no place to go and all hopes lost, the elderly have to resort to old age homes, which do not guarantee first class treatment. There are times when parents just want to relax and want their children to reciprocate their care. Every parent wants to see their child grow and be successful but no parent wants

their child to treat them like an unnecessary load on their responsibilities.

Every other day, we see news of parents being beaten up by their children, parents and in-laws being forced to do the household chores, being made to live in small dungeon-like rooms, their property being forcefully taken over by over ambitious children. According to an estimate, nearly 40% of senior citizens living with their families are reportedly facing abuse of one kind or another, but only 1 in 6 cases actually comes to light.

# ROTARY YOUTH LEADERSHIP AWARDS

Rotary Youth Leadership Awards (RYLA) is an intensive training program that brings together youth and young adults, age 14-30, to further develop character and leadership skill and learn about Rotary. RYLAs often take the form of a seminar, camp, or workshop, generally 3-10 days in length, organized by Rotarians at the club, district, or multi-district level.

Participants are nominated by local Rotary clubs, which often cover all expenses. For these young adults, this recognition offers the opportunity to build self-confidence, gain exposure to a variety of issues and people, meet active community leaders, and learn valuable information and RYLA gives Rotarians the opportunity to mentor promising young leaders serving their own to communities and beyond. Rotarians serve as resources for participants on the path to becoming professional and community leaders. In turn, RYLA can bring new energy to a Rotary district, inspire ideas for service, increase support of community service projects and develop future Rotarians.

Originating in 1959 in Queensland, Australia, RYLA was created as a festival highlighting local youth organized in honor of a royal visit by Princess Victoria. Through Rotarians' constant belief in the potential of youth, RYLA has since become an opportunity to help the next generation of leaders define themselves and expand their skills. Officially adopted by Rotary International (RI) in 1971, this exciting program engages Rotary club and districts around Each RYLA shares the following program objectives;

- To demonstrate Rotary's respect and concern for youth.
- To encourage and assist young people in responsible and effective voluntary youth leadership by providing them with a valuable training experience.
- To foster continued and stronger leadership of youth by youth
- To publicly recognize the many young people who are rendering service to their communities as youth leaders.

# INTERACT

Interact is a service club for youth ages 14-18. Clubs benefit from sponsorship by individual Rotary clubs, which provide support and guidance. Interact has a membership of over 4,62,806 youth in more than 20,122 clubs worldwide. It's one of Rotary's fastest growing programs.

Interact clubs are self-governing and self community based. Interact's name is a combination of the words international and action. With clubs in over 120 countries and geographical areas, Interact is truly an international phenomenon. Interact's global youth network is dedicated to community and international service. Every Interact club project great or small, has a lasting impact on society worldwide. Brazil, India, the Philippines and the United States boast the highest number of Interact clubs.

## World Interact Week

During World Interact Week, Interactors and Rotarians around the world commemorate the chartering of the first Interact club. The celebration, which takes place during the week of 5 November, is an ideal time for Interact clubs and their Rotary club sponsors to carry out joint activities and promote the positive effect Interact clubs have on their communities. While you are planning your celebration, why not include the activities listed on the World Interact Week recognition form at [www.rotary.org](http://www.rotary.org). Clubs that complete the activities and submit the form as instructed will receive special recognition from RI.

# ROTARACT

Rotaract clubs are part of a global effort to bring peace and international understanding to the world. This effort starts at the community level but knows no limits in its outreach. The Rotaract program has grown into a strong, international network of 7,300 clubs in more than 150 countries and geographical areas. Rotaract's 145,000 members are young men and women (age 18 to 30) who serve the needs of their communities, widen their personal and professional contacts, and increase their understanding of the world.

## Goals

### Rotaract has the following goals :

- To develop professional and leadership skills.
- To emphasize respect for the rights of others, based on recognition of the worth of each individual.
- To recognize the dignity and value of all useful occupations as opportunities to serve.
- To recognize, practice and promote ethical standards as leadership qualities and vocational responsibilities.
- To develop knowledge and understanding of the needs, problems and opportunities in the community and worldwide.
- To provide opportunities for personal and group activities to serve the community and promote international understanding and goodwill toward people.
- Rotary International is a worldwide service organization for leading business and professional men and women, with more than 12 million members in over 31,000 Rotary clubs. Each Rotaract club is sponsored by a local Rotary club.
- This sponsorship is a result of Rotary's belief that young people, or New Generations, should take an active interest in community life and have the opportunity for professional development.
- Organizing a Rotaract club is one of the most rewarding activities a Rotary club can undertake in its community. The Rotaract program gives Rotarain the opportunity to mentor dynamic young women and men interested in providing service to their own service, increase support for projects, and help develop future Rotary club members.
- Rotaract clubs are self-governed and largely selffinanced at the local level. Working in cooperation with their sponsoring Rotary clubs as partners in service, Rotaractors are an important part of Rotary's extended family.
